

Fannin County will be holding a public hearing to review a draft update to the Fannin County Hazard Mitigation Plan on Friday, September 24, 2021, at 10:30am at the Fannin County Emergency Services Complex at 20 Station Ridge, Blue Ridge, GA 30513. We will be reviewing a draft of the update to the Hazard Mitigation Plan which, once completed, will later be brought before the County Commission for adoption. This plan considers natural and other hazards that affect the County and Cities within and looks at ways to potentially mitigate those hazards. The County extends this invitation to attend to all interested parties, including residents, businesses, government agencies, neighboring communities and Counties, educational institutions, and any other interested parties.
