## INDEPENDENT AUDITOR'S REPORT

June 27, 2022

Board of Commissioners  
FANNIN COUNTY, GEORGIA  
Blue Ridge, Georgia

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of FANNIN COUNTY, GEORGIA, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of FANNIN COUNTY, GEORGIA, as of December 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the FANNIN COUNTY WATER AUTHORITY, a component unit of the County, as of June 30, 2021, which represent 67.13%, 68.17%, and 41.45%, respectively, of the assets, net position, and revenues of the discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the FANNIN COUNTY WATER AUTHORITY, is based solely on the report of the other auditors. We did not audit the financial statements of the FANNIN COUNTY HEALTH DEPARTMENT, a component unit of the County, as of June 30, 2021, which represent 8.42%, 2.84%, and 47.50%, respectively, of the assets, net position, and revenues of the discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the FANNIN COUNTY HEALTH DEPARTMENT, is based solely on the report of the other auditors.

### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Audit Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of FANNIN COUNTY, GEORGIA and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about FANNIN COUNTY, GEORGIA's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted audit standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of FANNIN COUNTY, GEORGIA's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about FANNIN COUNTY, GEORGIA's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of the Net Pension Liability - Fannin County Defined Benefit Plan, Schedule of Contributions - Fannin County Defined Benefit Plan, Schedule of Notes to Required Supplementary Information - Fannin County Defined Benefit Plan, Budgetary Comparison Schedule - General Fund, Budgetary Comparison Schedule - Excise Lodging Tax and Budgetary Comparison Schedule - Fiscal Recovery Fund, listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the FANNIN COUNTY, GEORGIA's basic financial statements. The combining and individual nonmajor fund financial statements, and Schedule of Projects Constructed with Special Sales Tax Proceeds which is presented for purposes of additional analysis as required by Official Code of Georgia 48-8-121 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, Schedule of Projects Constructed with Special Sales Tax Proceeds, Schedule of State Contractual Assistance, and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit and the report of the other auditors, the supplementary information identified above is fairly stated in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2022, on our consideration of the FANNIN COUNTY, GEORGIA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the FANNIN COUNTY, GEORGIA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering FANNIN COUNTY, GEORGIA's internal control over financial reporting and compliance.

*Bates, Carter & Co., LLP*

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Fannin County, Georgia (the "County"), we provide this narrative overview and analysis of the financial activities of the County for the year ended December 31, 2021. The County's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

### FINANCIAL HIGHLIGHTS

The County's assets exceeded its liabilities by \$69,705,790 (net position) for the year reported. This represents an increase of \$13,936,334 from the previous year.

Total net position is comprised of the following:

1. Net investment in capital assets equaled \$33,652,655.
2. Net position of \$16,589,680 is restricted for debt service, capital outlay, or by other constraints imposed by law or regulations.
3. At the end of 2021, unrestricted net position balance increased by \$6,592,744 from \$12,870,711 to \$19,463,455.

The County's governmental funds reported total ending fund balance of \$41,397,237. This compares to the prior year ending fund balance of \$28,013,404 showing an increase of \$13,383,833 during the current year.

At the end of 2021, unassigned fund balance for the County's governmental funds was \$19,499,839.

### OVERVIEW OF THE FINANCIAL STATEMENTS

The Management's Discussion and Analysis introduces the County's basic financial statements. The basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The basic financial statements present two different views of the County through the use of government – wide statements and fund financial statements. This report contains other supplemental information that will enhance the reader's understanding of the financial condition of the County.

#### Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the County's finances and are more comparable to the financial statements of private-sector businesses. The government-wide statements provide both short and long-term information about the County's financial status as a whole. Government-wide statements report the County's net position and how it has changed. Net position is the difference between the County's total assets and total liabilities. Changes in net position indicate the improvement (an increase) or deterioration (a decrease) in the County's financial condition.

The first of these government-wide statements is the *Statement of Net Position*. This statement presents information that includes all of the County's assets and liabilities, with the difference reported as total net position.

The second government-wide statement is the *Statement of Activities* which indicates how the County's net position changed during the current fiscal year. This report is designed to show the financial reliance of the County's activities and functions on revenues provided by County taxpayers.

The government-wide statements are divided into governmental activities and component units.

**Governmental activities** include most of the County's basic services such as general administration, public safety, public works, court systems, culture and recreation, health and welfare, and housing and development. Property taxes, sales taxes, and state and federal grants finance most of these activities.

**Component Units** for the County include the Development Authority, the Water Authority, and the Fannin County Department of Public Health. Separate financial statements are issued for all component units other than the Development Authority. See page 10 of the financial statements for more information.

### **Fund Financial Statements**

Fannin County, like all other governmental entities in Georgia, uses fund accounting to ensure compliance with finance-related laws and regulations. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. All of the funds of the County can be classified as governmental funds, proprietary funds, or fiduciary funds.

**Governmental funds** are used to account for those functions reported as governmental activities in the government-wide financial statements. These funds focus on how assets can readily be converted into cash and the amount of funds left at year-end that will be available for spending in the next fiscal year. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps determine if there are financial resources available to finance the County's programs. Most of the County's basic services are accounted for in governmental funds.

**Fiduciary Funds** are used to account for resources held for the benefit of parties outside the Government. Fannin County's fiduciary funds are considered custodial funds.

**Notes to the Financial Statements** provide additional information that is essential to a full understanding of the data presented in both the government-wide and fund financial statements. The notes to the financial statements begin on page 12 of this report.

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The table below presents the County's condensed *Statement of Net Position*. Comparison analysis is made from the year ended December 31, 2021 to the year ended December 31, 2020 as required by GASB Statement No. 34.

**Comparative Schedule of Net Position  
December 31, 2021 and 2020**

	<b>Governmental Activities</b>	
	<b>2021</b>	<b>2020</b>
Capital assets (net of depreciation)	\$ 34,041,225	\$ 32,968,036

Total net position	<u>\$ 69,705,790</u>	<u>\$ 55,769,456</u>

Over time, net position serves as a useful indicator of a government's financial position. The County's net position totaled \$69,705,790 at December 31, 2021 compared to \$55,769,456 at December 31, 2020. The total increase was \$13,936,334.

The largest portion of net position, \$33,652,655 (48%), reflects the County's investment in capital assets (land, buildings, machinery and equipment) less accumulated depreciation and any related debt still outstanding that was issued to acquire those assets. The County uses these capital assets to provide services to citizens; therefore, these assets are not available for future spending. Although the County's investments in capital assets are reported net of outstanding debt, the resources needed to repay the debt must be provided by other sources as the capital assets cannot be liquidated to pay the liabilities. The County has \$16,589,680 (24%) of restricted net position that is subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used. The remaining portion of net position represents \$19,463,455 (28%) of unrestricted net position.

The table below presents the County's condensed *Statement of Activities* for the year ended December 31, 2021 with comparative amounts for the year ended December 31, 2020.

**FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS**

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds:** The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. This information is useful in assessing the Government's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The major governmental funds are the General Fund and SPLOST Fund. The General Fund is the chief operating fund of the County. It is used to account for all governmental financial resources not restricted by state or federal laws, local ordinances, or other imposed requirements. The County's General Fund reported ending fund balance of \$20,798,823. This compares to the prior year ending fund balance of \$14,637,252, showing an increase of \$6,161,571 during the current year. At the end of fiscal year 2021, unassigned fund balance for the County's General Fund was \$19,499,839.

The County's Excise Tax Lodging Fund balance increased \$10,800 from 2020. The Excise Tax Lodging Fund has an ending fund balance of \$466,219 which is restricted for Housing and Development Programs.

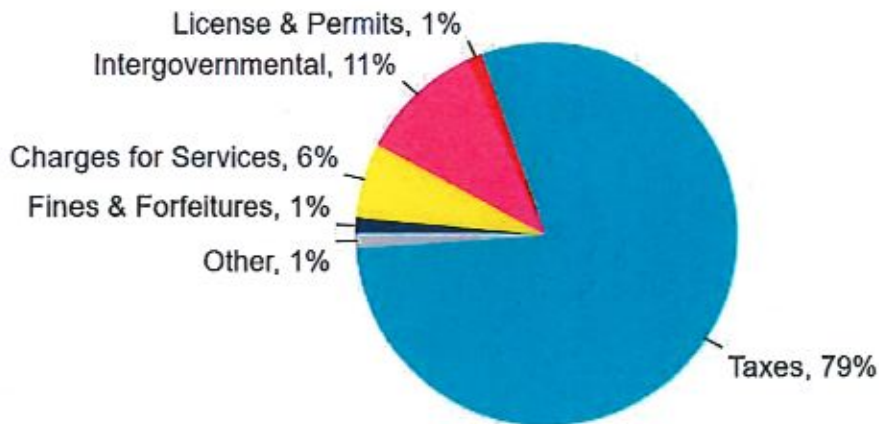

The County's Fiscal Recovery Fund balance increased \$262 from 2020. The Fiscal Recovery Fund has an ending fund balance of \$262 which is restricted for General Government Programs.

The County's other major governmental fund is the SPLOST Fund. The fund balance of the SPLOST Fund increased by \$4,574,438 during the current fiscal year. Collections for 2014 SPLOST began on July 1, 2014. Based on the approved 2014 SPLOST referendum, the majority of the 2014 SPLOST revenues are allocated for capital road projects and public safety. The SPLOST Fund has an ending fund balance of \$14,234,282 which is restricted for capital projects as outlined in the 2014 SPLOST referendum.

In 2021, governmental revenues increased \$8,066,353 from 2020. This increase is primarily due to activity in the General Fund related to an increase in revenues from taxes, licenses and permits, and intergovernmental funding. The County recognized \$55,769,456 as revenue and \$1,492,856 as unearned revenue from the American Rescue Plan Act Funding which contributed to the large increase in governmental revenues.

***ECONOMIC FACTORS AND THE 2022 BUDGET***

- The 2021 millage rate equalled the 2020 millage rate at 3.862 per \$1,000 of valuation. The 2021 net tax digest reflected an increase in overall valuation. The 2021 total County taxes levied increased \$111,612 as compared to 2020. The County property tax digest is assessed and recorded as revenue in the same fiscal period. The budget for fiscal year 2022 is created using historical trends and future projections.

- The 2022 budget was approved and adopted by the Board of Commissioners on December 14, 2021. The 2022 operating budget increased in the amount of \$7,822,947 from \$29,444,533 to \$37,218,695. The majority of the revenue increase is in tax revenues, title ad valorem tax, license and permit fees. The majority of expenditure increase is in purchased services and salaries and benefits.
- Monthly budgetary reports are provided to all department heads, elected officials and the Board of Commissioners.
- As referred to in Note 18 of the Financial Statements, fiscal year 2022 may have some unexpected differences in the upcoming financials due to the spread of a strain of coronavirus. This outbreak may negatively impact operating results in the future due to operational disruptions caused by the pandemic.

Fannin County management continues to monitor revenue collection rates and control budgetary spending in an effort to provide services at or above current levels without further burdening the county taxpayers.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND**  
**CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE**  
**STATEMENT OF ACTIVITIES**

**For the Year Ended December 31, 2021**

Net change in fund balances (page 6) \$ 11,147,583

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital outlays	3,231,834	
Depreciation expense	<u>(2,158,644)</u>	1,073,190

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes	5,662	
Ambulance charges	<u>(46,359)</u>	(40,697)

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, where as these amounts are deferred and amortized in the statement of activities. This adjustment combines the net change of two balances.

Principal payments on long-term debt	1,284,389	
Accrued interest on bonds, prior year	<u>6,623</u>	1,291,012

Net pension liability is not available during the current period and therefore is not reported in the fund and changes in the ACOG pension plan actuarial assumptions are reported in deferred outflows and inflows.

End of year- Deferred outflows to pension	1,548,939	
Beginning of year- Deferred outflows to pension	(1,639,969)

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of FANNIN COUNTY, GEORGIA have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below.

**REPORTING ENTITY**

The County is a political subdivision of the State of Georgia, located about 60 miles north of Atlanta. The County is governed by three elected Commissioners. In addition, there are four Constitutional Officers: the Tax Commissioner, Probate Court Judge, Sheriff, and Clerk of Superior Court. The Constitutional Officers are elected county wide. The Board of County Commissioners budgets and approves all funding used by the separate Constitutional Officers. As required by generally accepted accounting principles, these financial statements present the County and its component units, entities for which the County is considered to be financially accountable and for which a financial benefit or burden relationship is present. Each discretely presented component unit is reported in a separate column in the combined financial statements to emphasize it is legally separate from the County.

Blended component units, although legally separate entities, are, in substance, part of the Government's operations. A brief description of the blended component unit follows:

**FANNIN COUNTY BUILDING AUTHORITY:** The Building Authority is governed by a board appointed by the County Commissioners who have the ability to impose their will on the Building Authority. Although it is legally separate from the County, the Building Authority is reported as if it is a part of the primary government, as a blended component unit, because its primary purpose is to acquire, construct, and maintain capital projects for use by the County. Separate financial statements for the Building Authority are not prepared. Financial information related to the Fannin County Building Authority may be obtained from the Office of the County Clerk of Fannin County, Georgia.

Brief descriptions of discretely presented component units follow:

**FANNIN COUNTY DEPARTMENT OF PUBLIC HEALTH:** The Health Department is governed by a seven member board comprised of a Fannin County Commission representative, the Fannin County school superintendent, a licensed physician practicing in Fannin County, a City of Blue Ridge Council representative, and two members appointed by the City of Blue Ridge Council. The Health Department is reported as a component unit of the County because it is fiscally accountable. The Health Department

provides health related services to residents of Fannin County. The County provides the Health Department with its building space, liability insurance, maintenance on the building, and janitorial services. The presentation of the Health Department's financial information was taken from its audited financial report as of June 30, 2021. Separate financial statements for the Health Department can be obtained from their administrative offices at Georgia Department of Health Resources, Northwest Health District, 111 Bryant Crossing, Suite AA, Dalton, Georgia 30720.

**DEVELOPMENT AUTHORITY OF FANNIN COUNTY:** The Development Authority provides a means to develop and promote trade, commerce, industry, and employment opportunities within the County. The Development Authority is used as a flow through for grant monies and expenditures for real estate development projects. All nine board members are appointed by the County and the County has a significant financial relationship with the Development Authority. Separate financial statements for the Development Authority are not prepared. Financial information for the Fannin County Development Authority may be obtained from the Office of the County Clerk of Fannin County, Georgia.

**FANNIN COUNTY WATER AUTHORITY:** The Water Authority acquires, constructs, equips, maintains, and operates adequate water supply, treatment, and distribution facilities and sewerage collection, treatment, and distribution facilities, making such facilities and services available to public and private consumers and users located in the County. The Water Authority receives SPLOST allocated for water purposes from the County. All seven board members are appointed by the County and the County has a significant financial relationship with the Water Authority. The presentation of the Water Authority's financial information was taken from its audited financial report as of June 30, 2021. Separate financial statements for the Water Authority may be obtained from their administrative offices at 400 West Main Street, Suite 101 B, Blue Ridge, Georgia 30513.

**GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

**MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION**

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements (fiduciary funds use the economic resources measurement focus to indicate that custodial funds have no measurement focus). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers property taxes as available if they are collected by the end of the current fiscal year. Other revenues susceptible to accrual are considered available if they are collected within 60 days of the end of the current fiscal period for which they are imposed. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

Property taxes, sales tax, franchise taxes, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County.

The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Excise Tax Lodging Fund* is used to account for collection of special sales tax to be used for tourism promotion within the County.

The *SPLOST Capital Projects Fund* accounts for funds received from a local 1% sales tax, passed by the 2011 and 2017 Special Purpose Local Option Sales Tax referendums, which are reserved for construction of various capital projects.

The *Fiscal Recovery Fund* accounts for funds received from the federal government as part of the American Rescue Plan Act to aid the economic recovery associated with the effect of the COVID-19 pandemic.

Additionally, the County reports the following fund types:

*Special revenue funds* are used to account for the proceeds of specific revenue sources that are legally or donor restricted to expenditures for specified purposes.

*Capital projects funds* account for acquisition and construction of the County's capital assets.

*Fiduciary funds* are custodial in nature and do not represent results of operations or have a measurement focus. Custodial funds are accounted for using the accrual basis of accounting. These funds are used to account for assets that the Tax Commissioner, Clerk of Superior Court, Probate Court, Magistrate Court, and Sheriff hold for others in an agency capacity.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are interfund services provided and used which are not eliminated in the process of consolidation. Elimination of these charges would distort the direct costs and program revenues for the various functions concerned.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

**ASSETS, LIABILITIES AND NET POSITION OR EQUITY**

***Deposits and Investments***

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are recorded at fair value based on quoted market prices as of the balance sheet date. Increases or decreases in fair value during the year are recognized as part of investment income.

***Receivables and Payables***

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable, available financial resources.

All trade and property tax receivables are shown net of an allowance of uncollectibles.

Property taxes attach as an enforceable lien on property as of January 1. The 2021 taxes were levied August 30, 2021, and were due December 20, 2021. Interest and penalties are assessed on taxes not paid by this date. The taxes are subject to lien 90 days after the due date. Property taxes levied during 2021 are to fund operations for the County's fiscal year beginning January 1, 2021.

The County's property taxes were levied on the assessed values of all real and personal property including mobile homes and motor vehicles located in the County.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

***Inventories and Prepaid Items***

Inventories, consisting of expendable supplies, not held for resale are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The costs of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased.

***Bond Premiums and Discounts***

Premiums and discounts, if applicable, are deferred and amortized over the lives of the bonds and loans on a straight-line basis, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

***Restricted Assets***

Certain proceeds of the County's capital leases or debt issues may be classified as restricted assets on the balance sheet if they are maintained in separate bank accounts and their use is limited by applicable lease or debt agreements.

***Capital Assets***

Capital assets, which include property, plant, equipment, and infrastructure assets (i.e. roads, bridges, sidewalks, culverts, and similar items) are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of three years or an acquisition of land at any cost. Roads, bridges, culverts, and other infrastructure are defined by the County as projects with an individual cost of \$50,000 or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Roads, bridges, and culverts acquired prior to July 1, 1980 have not been reported.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>	<u>Assets</u>	<u>Years</u>
Buildings & Improvements	20-50	Vehicles	2-5
Equipment	2-15	Infrastructure	30
		Land	N/A

***Deferred Outflows/Inflows of Resources***

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has one item that qualifies for reporting in this category. This item consists of the deferred charge in pension expense. The deferred charge in pension expense represents contributions made into the defined benefit pension plan after the measurement date. These contributions will be recognized as pension expense in the next fiscal year.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The County has two items that qualify for reporting in this category. These two items consist of unavailable revenue and deferred inflows related to pension expense. Unavailable revenue, arises under the modified accrual basis of accounting and accordingly is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and ambulance charges. The deferred inflows related to pension expense represents differences between expected and actual experience with regard to economic or demographic factors in the measurement of the total pension liability and changes of assumptions about future economic or demographic factors or of other inputs. These deferred inflows will be recognized in pension expense using a systematic and rational method over a closed five-year period, beginning with the current reporting period.

**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

***Compensated Absences***

It is the County's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. In accordance with the provisions of Statement of Governmental Accounting Standards No. 16, "Accounting for Compensated Absences," no liability is reported for unpaid accumulated sick leave because the benefits are paid only upon illness of an employee, and the amount of such payments cannot be reasonably estimated. Vacation leave is forfeited if not taken by December 31st of each calendar year. Therefore, it is expensed as incurred.

***Long-term Obligations***

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position.

***Pensions***

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Fannin County Defined Benefit Plan (Plan) and additions to/from from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

***Fund Equity/Net Position***

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

***Fund Balance*** - Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

***Nonspendable*** - Fund balances are reported as nonspendable when the amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash like inventories and prepaid items) or (b) legally or contractually required to be maintained intact.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

*Restricted* - Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

*Committed* - Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Commissioners through the adoption of a resolution prior to the end of the fiscal year. In order to modify or rescind the commitment, the Board of Commissioners must adopt another resolution.

*Assigned* - Fund balances are reported as assigned when amounts are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the Board of Commissioners has authorized the County's finance director to assign fund balances.

*Unassigned* - Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The County reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all other governmental funds.

*Net Position* - Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any debt used for the acquisition, construction, or improvement of those assets. In determining the outstanding balance of any borrowing, proceeds of that debt which has not been spent is deducted. Accounts payable for costs related to acquisition, construction, or improvement of those capital assets is considered debt for this calculation. Net position is reported as restricted as described in the fund balance section above. All other net position is reported as unrestricted.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then committed, assigned, and unassigned (or unrestricted) resources as they are needed.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

***Net Investment in Capital Assets***

The "Net investment in capital assets" reported on the government-wide statement of net position as of December 31, 2021 are as follows:

	Governmental Activities	Component Unit Development Authority
Net investment in capital assets		
Cost of capital assets	\$ 75,411,816	\$ 1,513,947
Less accumulated depreciation	(41,370,591)	(786,612)
Book value	34,041,225	727,335
Less capital related debt	(388,570)	(494,648)
Net investment in capital assets	<u>\$ 33,652,655</u>	<u>\$ 232,687</u>

***Management Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**NOTE 2 - FUND BALANCE/NET POSITION**

The governmental activities statement of net position reports \$16,589,680 of restricted net position, of which \$15,709,657 is restricted by enabling legislation.

**NOTE 3 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**BUDGETARY INFORMATION**

Prior to September 1, the proposed budget is presented to the Board of Commissioners for review. The final budget must be prepared and adopted no later than the first County meeting in December. Public hearings are conducted by the Board of Commissioners to obtain taxpayer comments.

The level of legal budgetary control (the level at which expenditures may not exceed appropriations) is the department level. Any changes in total departmental expenditures/expenses must be approved by the Board of Commissioners.

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) at the legal level of budgetary control, which is the department level. Expenditures may not exceed the appropriations within a fund. Budgets, as reported in the financial statements, are as originally passed by ordinance and subsequently amended. During the year, several supplementary appropriations are made as needed. The results are increases and decreases to the appropriations within the funds. All annual appropriations lapse at year end.

**DEFICIT FUND BALANCES**

There are no funds with deficits.

**NOTE 4 - DEPOSITS AND INVESTMENTS**

**PRIMARY GOVERNMENT**

***Custodial Credit Risk - Deposits***

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the government's deposits may not be returned. The County's policies permit it to exceed the FDIC insured limit in making deposits in commercial banks and savings and loans institutions if the funds are otherwise adequately secured. As of December 31, 2021, all deposits of the County were insured or collateralized.

Depositories may secure deposits of public funds using the dedicated method or the pooled method as described below:

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

Under the *dedicated method*, a depository shall secure the deposits of each of its public depositors separately. State statutes require collateral pledged in the amount of 110% of deposits.

Under the *pooled method*, a depository shall secure deposits of public bodies which have deposits with it through a pool of collateral established by the depository with a custodian for the benefit of public bodies having deposits with such depository as set forth in code Section 45-8-13.1. State statutes require collateral pledged in the amount of 110% of deposits under the single bank pooled method or at least 100% of amounts greater than 20% of the daily pool balance held by any one covered depository under the multibank pooled method.

The County utilized both methods to secure its deposits of public funds.

***Interest Rate Risk***

Interest rate risk is the risk that changes in interest rates may adversely affect an investment's fair value. Since the price of a bond fluctuates with market interest rates, the risk that an investor faces is that the price of a bond held in a portfolio will decline if market interest rates rise. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

***Credit Risk***

State statutes authorize the County to invest in obligations of the U.S. Treasury and of its agencies and instrumentalities; bonds or certificates of indebtedness of this state or of other states and of its agencies and instrumentalities; certificates of deposits of banks insured by FDIC; the State of Georgia Local Government Investment Pool; repurchase agreements; bonds, debentures, notes or other evidence of indebtedness of any solvent corporation of the United States government. The County does not have an investment policy that would further limit these investment choices.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

A hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs requiring that the most observable inputs be used when available was established. Level 1 within the hierarchy states that valuations are based on unadjusted quoted market prices for identical assets in active markets. Level 2 within the hierarchy states that valuations are based on observable inputs other than Level 1 process, such as quoted prices for similar assets, quoted prices in inactive markets and other inputs that may be corroborated by observable market data. Level 3 assets are not actively traded, and their values can only be estimated using a combination of complex market prices, mathematical models, and subjective assumptions. As of December 31, 2021, the County did not hold any assets that are measured at fair value on a recurring basis in periods subsequent to initial recognition.

***Concentration of Credit Risk***

The County places no limit on the amount it may invest in any one issuer.

***Foreign Currency Risk***

The County has no investments denominated in a foreign currency.

**GOVERNMENTAL ACTIVITIES**

**Installment Sale Agreement**

The County has entered into an installment sale agreement with the Association of County Commissioners of Georgia ("ACCG") for the purpose of refunding outstanding certificates of participation and revenue bonds issued in 2001 in conjunction with the construction of a new courthouse and jail facilities and the purchase of land for a County park. The substance of the agreement provided for the sale and simultaneous repurchase of the County's courthouse and jail facilities for a cost of \$9,325,250, an amount sufficient to refund the outstanding certificates and bonds and to cover other costs of the transaction. The ACCG has assigned this agreement to the Bank of America. The County has pledged the County Courthouse and Jail building for collateral for the agreement. The installment sale agreement bears an interest rate of 2.39%. At December 31, 2021, the loan was paid in full.

**Capital Leases**

The County has entered into an agreement for the lease of certain equipment. The terms of the agreements meet the criteria of a capital lease as defined by Accounting Standards Codification 840 Leases, which defines a capital lease generally as one which transfers benefits and risk of ownership to the lessee. This year, \$196,762 was included in depreciation expense. The balance of these leases at December 31, 2021 is \$388,571 for governmental activities.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

The County leases certain equipment under non-cancelable capital leases. The leases relate to equipment and vehicles for EMS, fire, and road. Ownership of the related assets will be transferred to the County at the end of the lease terms. The assets acquired through capital leases are as follows:

**NOTE 10 - RETIREMENT PLANS**

**DEFINED BENEFIT PENSION PLAN**

***Plan Description***

The County contributes to the Fannin County Defined Benefit Plan (the "Plan"), which is a defined benefit pension plan.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

The Plan provides retirement, disability, and death benefits to plan participants and beneficiaries. The Plan, through execution of an adoption agreement, is affiliated with the Association County Commissioners of Georgia Defined Benefit Plan (the ACCG Plan), an agent multiple-employer pension plan administered by GEBCorp. The ACCG, in its role as the Plan Sponsor, has the sole authority to amend the provisions of the ACCG Plan, as provided in Section 17.01 of the ACCG Plan document. The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of the Plan, as provided in Section 17.02 of the ACCG Plan Document. The Plan issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. That report may be obtained by writing to Government Employees Benefits Corporation of Georgia, 400 Galleria Parkway, Suite 1250, Atlanta, Georgia 30339.

All full-time employees are eligible to participate in the Plan after completing three years of service. Benefits vest after five years of service. The plan is closed to employees with a commencement date on or after July 1, 2018. Participants become eligible to retire with unreduced benefits at age 65 or the anniversary of the required years of service under which the ACCG Plan specifies. Upon eligibility to retire, participants are entitled to an annual benefit in the amount of 1% of annual average compensation up to \$10,000 plus 1.5% of average annual compensation in excess of \$10,000 plus \$50 multiplied by years of service. Compensation is averaged over a five year period prior to retirement or termination. The Plan also provides benefits in the event of death before retirement or early retirement subject to certain early retirement reduction factors. These benefit provisions were established by an adoption agreement executed by the County Commission.

Participant counts as of January 1, 2020, (the most recent actuarial valuation date) and covered compensation (base on covered earnings for the preceding year) are shown below:

Retirees, beneficiaries and disabled participants receiving benefits	84
Terminated plan participants entitled to but not yet receiving benefits	95
Active employees participating in the Plan	<u>201</u>
Total number of Plan participants	<u><u>380</u></u>
Covered compensation for active participants	\$ 6,492,529
Contributions as a percentage of covered payroll	5.60%

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

***Contributions***

The County is required to contribute at an actuarially determined rate. The contribution amount is determined using actuarial methods and assumptions approved by the ACCG Plan trustees and must satisfy the minimum contribution requirement contained in the State of Georgia Statutes. Section 47-20 of the Georgia Code sets forth the funding standards for state and local governmental pension plans.

***Net Pension Liability***

The County's net pension liability was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The total pension liability as of the January 1, 2020 valuation was determined by an actuarial valuation using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.00%
Salary Increases	3.00% - 5.00%, average, including inflation
Investment rate of return	7.00%, net of pension plan investment expense, including inflation

Mortality rates were based on the Pub - 2010 GE Amount-Weighted with Scale AA for Males and Females.

The actuarial assumptions used in the January 1, 2020 valuation were based on the results of an actuarial experience study dated February, 2014.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

Asset Class	Target Allocation	Long-term expected real rate of return*
Fixed income	30.00%	3.07%
Domestic large equities	30.00	1.97%
Domestic mid equities	5.00	0.86%
Domestic small equities	5.00	0.30%
REIT	5.00	0.52%
International	15.00	0.47%
Multi cap	5.00	0.51%
Global allocation	5.00	0.58%
<b>TOTAL</b>	<u><u>100.00%</u></u>	

\* Rates shown are net of inflation

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**DEFINED CONTRIBUTION PLAN**

***Plan Description***

The County contributes to two deferred compensation plans administered by independent plan administrators through an administrative agreement; Plan A is administered by Nationwide Retirement Solutions and Plan B is administered by GEBCorp. Both plans were established by the County in July, 2018 pursuant to Section 401(a) of the Internal Revenue Code of 1986 as a Money-Purchase Plan and Trust. Any employees hired after July 1, 2018 can enroll in the County's 401(a) defined contribution plan. The County will provide a match up to 4% of the employee's salary, which is deposited into the 401(a). Employees are eligible after six months of employment and are fully vested after five years. Plan provisions and contribution requirements are established and may be amended by resolution of the County Commissioners. Neither Plan A nor Plan B issue a stand alone report.

***Funding Policy***

Contributions totaling \$91,919 (\$0 employer and \$91,919 employee) were made in accordance with the Plan A guidelines and the designations by County Employees.

**DEFERRED COMPENSATION PLAN**

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457(b). The plan, available to all County employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. Because the assets are held in trust for the employees, they are not assets of the County and are not reported in these financial statements.

**NOTE 11 - CONTINGENT LIABILITIES AND COMMITMENTS**

The County's encumbrances outstanding at the end of the fiscal year that will be honored in the next fiscal year are not significant for any of the major funds nor for the nonmajor funds in total.

Amounts received or receivable for grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

The County may be a defendant in several lawsuits. Management intends to contest these open cases vigorously. The County's legal counsel has stated that the outcome of these lawsuits is not presently determinable.

**NOTE 12 - RISK MANAGEMENT**

The County is exposed to various risks of losses related to torts, thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The following are ways the County handles these risks:

**WORKERS' COMPENSATION**

The County participates in the Association County Commissioners of Georgia (ACCG) Group Self Insurance Workers' Compensation Fund (GSIWCF), a self-insured pool cooperative arrangement among its members to finance workers' compensation coverage. The fund is owned by its members and is managed by a seven member Board of Trustees who are representatives from participating counties. The ACCG-GSIWCF operates under the authority of O.C.G.A. 34-9-150 et seq. and the Georgia Insurance Commissioner's Office. The members of ACCG-Group Self Insurance Workers' Compensation Fund are assessable if the losses that ACCG must pay exceed the assets of the pool. At December 31, 2021, there was no need for such an assessment. Therefore, no liability has been recorded in these financial statements.

As part of this risk pool (GSIWCF), the County is obligated to pay all contributions and assessments to cooperate with the pools' agents and attorneys, to follow loss reduction procedures established by the funds and to report as promptly as possible, in accordance with any coverage descriptions issued, all incidents that could require the funds to pay any type of loss. The County is also to allow all the pools' agents and attorneys to represent the County in investigations, settlement discussions, and all levels of litigation arising out of any claim made against the County.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the worker's compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

**GROUP HEALTH INSURANCE**

The County provides health care benefits to its active employees and their dependents through a partially self-insured plan administered by Benefit Support, Inc. Under this arrangement, the County is responsible for paying all claims but purchases reinsurance policies through an insurance provider that is responsible for paying claims in excess of \$100,000. The County pays most of the coverage for eligible employees and their dependents. Employee contributions are used to pay claims and expenses of the plan incurred during the year.

Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. At December 31, 2021, the County included in accrued expenses \$1,337 for unpaid claims. This liability was determined based on actual claims received for the first two months after year-end plus projected claims based on prior years activity. These claims are expected to be paid within 12 months of the year-end.

	Beginning of Year	Incurred Claims and Changes in Estimates	Claims Payments	End of Year
Year ended December 31, 2020	\$ 320,254	\$ -	\$ (318,879)	\$ 1,375
Year ended December 31, 2021	\$ 1,375	\$ -	\$ (38)	\$ 1,337

As of July 1 2020, the County terminated it's plan with Benefit Support Inc. and now provides health care benefits to its active employees and their dependents through a fully-insured policy plan administered by United Healthcare Insurance Company.

**OTHER**

The County also purchases combined automobile, crime, liability, and property insurance coverage from the Association County Commissioners of Georgia. The following is a summary of coverage at December 31, 2021:

Property Losses	\$ -	aggregate
Comprehensive General Liability	\$ 2,000,000	per occurrence
Automobile Liability	\$ 1,250,000	per occurrence
Law Enforcement Liability	\$ 2,000,000	per occurrence
Crime Coverage (theft/fraud)	\$ 150,000	per occurrence
Errors and Omission Liability	\$ 2,000,000	per occurrence
	\$ 4,000,000	aggregate

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

The County has no outstanding claims in excess of coverage for which a liability should be recorded as of December 31, 2021.

Settled claims in the past three years have not exceeded the coverage.

**NOTE 13 - NORTHWEST GEORGIA REGIONAL COMMISSION**

Under Georgia Law, the County, in conjunction with other cities and counties in the northwest Georgia area, is a member of the Northwest Georgia Regional Commission (NWGRC) and is required to pay annual dues thereto. During the year ended December 31, 2021, the County paid \$23,200 in such dues. Membership in the NWGRC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organizational structure of the Regional Commission in Georgia. The NWGRC Board membership includes the chief elected official in each county and municipality of the area. The County Board members and municipal board members from the same county elect one member of the Board who is a resident (but not an elected or appointed official or employee of the County or municipality) to serve as the nonpublic Board member from a County.

The Georgia Planning Act of 1989 (O.C.G.A. 50-8-34) defines regional commissions as "public agencies and instrumentalities of their members." Georgia laws also provide that the member governments are liable for any debts or obligations of a regional commission beyond its resources. (O.C.G.A. 50-8-39.1)

Separate financial statements for the NWGRC can be obtained from NWGRC, P.O. Box 1798, Rome, Georgia 30162.

**NOTE 14 - RELATED PARTIES**

The County entered into a license agreement on June 25, 1986 with the Tennessee Valley Authority (TVA) whereby the County has use of four TVA houses and land adjoining the Lake Blue Ridge dam site. The County is responsible for the maintenance, upkeep, and security of these properties. During the current year, the County has discussed with the TVA a possible restructure of the license agreement under which the County would be able to use the property as a park for County residents.

**FANNIN COUNTY, GEORGIA**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2021**

**NOTE 15 - LANDFILL CLOSURE AND POSTCLOSURE CARE COST**

State and federal laws and regulations require the County to place a final cover on a landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. The County elected an early closure date of April 10, 1994 when the solid waste landfill facility reached 80% capacity. In 1994, engineering studies estimated post closure costs of approximately \$66,121 to complete the closure of the landfill. These costs were based on the amounts that would be paid if all equipment, facilities, and services required to monitor and maintain the landfill were acquired as of the expected date of closure of December 31, 1996. Amounts were expensed as closure of the landfill was completed. On February 1, 2000, the County received its closure certificate; therefore, no significant future expenditures are expected. At the end of the current year, no liability remains for the post closure care costs.

**NOTE 16 - SIGNIFICANT ESTIMATES**

As discussed in Note 1, estimates are used in the preparation of these financial statements. Three of the estimates qualify as significant estimates in that it is reasonably possible that the estimates will change in the near term due to one or more future confirming events and this change will have a material effect on the financial statements.

These estimates are as follows:

The estimate for accumulated depreciation on capital assets. This estimate is based on the original or estimated cost of the assets, depreciated over the estimated useful lives using the straight line method and composite method.

The estimate for allowance for doubtful accounts relating to Fannin County EMS accounts receivable qualifies as a significant estimate. The estimate is calculated based on the previous year's collection percentage of accounts greater than one year old.

The amount reported as the estimated amounts for the net pension liability, and related deferred outflows and deferred inflows, qualify as significant estimates and are based on actuarial studies and projections.

**NOTE 17 - HOTEL/MOTEL TAX**

During the year ended December 31, 2021, the County had receipts of \$5,746,462 and spent \$2,868,722 to promote tourism, conventions, and trade shows. The total expenditures represent 50% of the tax receipts to be expended for these purposes under OCGA 48-13-51. The County has complied with the requirements of this law.

**NOTE 18 - COVID-19**

In January 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacted many industries. The outbreak could have a continues material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any predication as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the County, its performance, and its financial results.

On March 11, 2021 the American Rescue Plan Act of 2021, ("ARPA") was enacted. The County received \$2,543,151 as of December 31, 2021. These funds are to be used for expenditures related to recovery from the COVID-19 pandemic as outlined by the United States Department of Treasury. During the current year, the County recognized \$1,050,500 as revenue and \$1,492,856 as unearned revenue. See Note 5 for more information about unearned revenue.

**Method and Assumptions Used in Calculations of Actuarially Determined Contributions**

The actuarially determined contribution rates in the schedule of contributions are calculated as December 31, one year prior to the end of the fiscal year in which donations are reported. The following actuarial methods and assumptions were used to determine the contractually required contributions for the year ended December 31, 2021 reported in that schedule:

Valuation Date	January 1, 2020
Actuarial Cost Method	Entry Age Normal
Amortization Method	Level percentage of payroll, open
Remaining Amortization period	30 years
Asset Valuation method	Five-year smoothed market
Inflation Rate	2.00%
Salary Increases	3.00% - 5.00%, including inflation
Investment rate of return	7.00%, net of pension plan investment expense, including inflation.
